- ✓ To facilitate financing of the customer's exports of eligible goods to approved buyers/ importers under EXIM Bank **ECR Post-shipment Scheme**.

2. What is the Syariah contract/ concept applicable?

Contract	Description	Applicability
Murabahah (cost plus financing) contract	A contract of sale based on cost plus where the acquisition cost and the seller's profit margin are disclosed to the buyer at the time of the contract. The settlement of the price is normally made on deferred payment terms.	<u>Pre-shipment ECR-i</u> Under the Murabahah, the Bank first appoints the customer as its purchasing agent, to buy the raw materials required in the production. Once the customer has purchased the goods on behalf of the Bank, the Bank then pay to the indirect supplier upon submission of invoice and resells the goods to the customer at a price inclusive profit margin.
Bai'Dayn (debt trading) contract	It refers to the buying and selling of debt instrument e.g. certificates, securities, trade documents and papers in the secondary market that conform to the Syariah requirements. All these documents are essentially issued by debtors to creditors as evidence of indebtedness. The Bai' Dayn happens when the creditor sell the debt documents to third parties. Only documents evidencing real debts arising from 'bona fide' merchant transactions can be traded.	<u>Post-shipment ECR-i</u> Under this mechanism, the customer, as owner of the export bill e.g. the debt instrument, appoints the Bank as collecting agent to collect payment from the importer. Since payment is payable at a specific future date, the exporter sells the debt to the Bank for immediate funds.
